

Colleges and universities that participate in EarlyEdU agree to the following principles:

- Field experience must be linked with coursework.
- Course assignments are competency-based.
- Grades are related to performance of competencies.
- Immediate feedback is essential.
- A student engaged in the Community of Reflection and Practice (CORP) is key for student learning and retention.
- The attainment of bachelor’s degrees empowers professionals and esteems the field of early childhood education.
- Institutions of higher education (IHEs) have an important role to play in making higher education more accessible, affordable, relevant, and effective for professionals in the field of early childhood education.
